

# **Don't Steal Our Subway!**

Our transit system is facing a privatization threat! Members of IBEW 353 took part in an action last Friday along with other transit riders and other unions at subway stops across Toronto to send Premier Ford a message: "Don't Steal Our Subway!" #OURsubway

Breaking apart the TTC and handing over the subway to developers and the private sector will mean higher fares and less accountability. If the province is serious about fixing overcrowding, delays, and unaffordable fares – and it should be – proper funding for the TTC is the answer.

Our momentum is growing to stop the province from stealing our subway!
